Selected sites in the Western Cape

All batches were picked at optimal ripeness, we cooled the grapes down before processing them. All cultivars were fermented in open top fermenters with 4 punch downs a day. Wine was matured in 300L barrels 2nd and 3rd fill. Vintages 2021, 2022, 2023 and 2024 was used in the blending of this wine.

Practicing Organic

Cabernet Sauvignon, Cabernet Franc, Petit Verdot, Merlot, Shiraz & Cinsault

About the Winery/Winemaker

Two nomads in the South African wine industry, Xander Grier and Rudolph Steenkamp, came together to collaborate and express themselves in ways that the day-to-day hustle wouldn't allow. At Salt Rock Wines, they aim to create awareness of the effect of two climate phenomena, El Nino and La Nina through a focus a series of dry farmed, coastal, and cool climate sites. The wines Salt Rock produce are suitable for consumption all year round and are serious enough to intrigue the wine aficionado, yet approachable and pleasing for the first-time wine drinker.
